Mission Statement

Todd Claim Service, Inc. has been doing business as independent adjusters and investigators in the Northwest Florida region for since 1962 and is owned and operated by W. Scott Todd. Our firm is comprised of three full-time all-lines adjusters, as well as a trained and qualified administrative support staff.

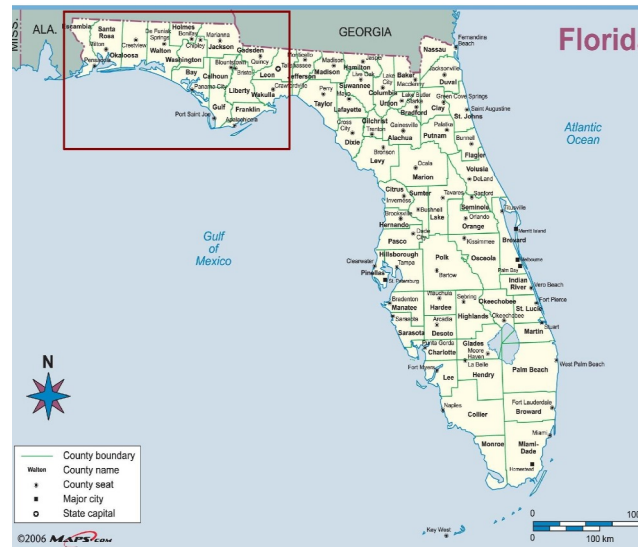

It is the philosophy of Todd Claim Service that by determining and fulfilling the specific needs of each client company, we gain their respect, trust and naturally, their continued business. We believe in growth and prosperity through partnership.

We are pragmatic adjusters and conduct all of our business activities with the utmost integrity and professionalism which we feel is obvious to those insureds and claimants with whom we work on a daily basis.

The difference between one firm and another is that intangible quality known as *professionalism*. It is our goal to represent our companies in just such a fashion. We also understand that by meeting all the requirements of each assignment and reporting with expediency, this allows the company examiner to meet their own guidelines and deadlines with respect to negotiations and maintaining appropriate reserves.

We invite you to call our office whenever the need arises in the North Florida area from Pensacola to Tallahassee above and below Interstate 10, including Panama City, Destin and other cities along the Gulf Coast, and the Mobile, Alabama area eastward to the Florida line.
